WRITER GUIDELINES

Thank you for writing for us. We appreciate all the effort, thought, research, and skill that go into writing a good article. We value all your hard work and your contributions to the success of our publication. Here are a few submission tips:

- Submit your article in Microsoft Word format via e-mail to **klosavio@wiley.com**. Use 12-point, Times New Roman type.
- Include a headline and byline in your document. Also, at the end of the document, include the full name, degrees, title, and affiliation with city and state for yourself and all co-authors.
- Don't use:
 - Double spaces between words.
 - Embedded references (instead manually insert the numbers as superscript numbers, with a numbered reference list at the end of the article).
 - Abbreviations.
 - All caps in running text.
- Do use:
 - Credentials after the first complete reference to a source (e.g., Simon Helfgott, MD, and thereafter Dr. Helfgott).
 - The *AMA Manual of Style* when creating your reference section.
 - Double-line spacing throughout.
 - Present-tense throughout (e.g., “Dr. Helfgott says” instead of “Dr. Helfgott said”).
 - Generic names for drugs, etc.
 - The % symbol and not the word percent with numerical percentages (ex: 5%).
 - Words for the numbers one through nine, and numerals for 10 and above.
 - Acronyms, but on first use spell out the words, followed by the acronym in parenthesis [e.g., disease modifying anti-rheumatic drugs (DMARDs)].
 - These special words/spellings:
 - antiinflammatory
 - nonsteroidal
 - e-mail
 - website
 - granulomatosis with polyangiitis (Wegener’s) NOT Wegener's granulomatosis

- X-ray
- DXA
- phase III trial NOT Phase 3
- High-resolution images. If you're submitting a photo, we accept both hard copy photos and also electronic images that are 300 dpi in resolution or greater.
- Figures and tables. Please include captions for figures.
- Acronyms, but on first use spell out the words, followed by the acronym in parenthesis [e.g., disease modifying anti-rheumatic drugs (DMARDs)].
